Questions?

State Legislative Update concludes

Municipal Bonds Action

- Tax-exempt municipal bonds are a well-established critical financing tool for local governments
- The U.S. House and Senate are drafting legislation to extend the 2017 Tax Cuts and Jobs Act
 - While bill text is still being drafted and has not yet been released, there are proposals under consideration that would offset the cost of extending these tax provisions by eliminating the long-standing municipal bond tax exemption
- Discuss and take appropriate action to add this item to the County's Federal Legislative Agenda

Assistance to Southwest Border Communities “colonias”

- HUD and USDA have 5 grant and loan programs that target colonias to improve water and wastewater systems and housing; however, due to population changes, nearly 60% of colonias will likely become ineligible in the future for certain targeted financial assistance
- By statute, U.S.-Mexico border states must set aside a percentage of their HUD CDBG funding for colonias located within metropolitan statistical areas of 1 million persons or less. However, many colonias are now part of areas that likely will soon exceed this threshold.
- Revising the population requirement could help preserve eligibility for many communities that were originally intended to benefit from the set-aside.

Assistance to Southwest Border Communities “colonias”

Discuss and take appropriate action to add the following items to the County’s Federal Legislative Agenda:

1. Urge Congress to consider revising the population requirement for colonias to receive CDBG set-aside funding given population growth; and
2. Support the GAO’s recommendation to USDA, encouraging them to develop procedures to identify applications for Single Family Housing assistance for projects in colonias.

*Discuss and provide
recommendations or feedback.*
