| **Background:** | Presentation of the 2023 Annual Comprehensive Financial Report. The Annual Comprehensive Financial Report is a set of financial statements for a state, municipality or other government entity that comply with the accounting requirements established by the Governmental Accounting Standards Board (GASB). It must be audited by an independent auditor using generally accepted government auditing standards. An Annual Comprehensive Financial Report contains the actual results of the prior year's financial activities. The Annual Comprehensive Financial Report consists of three sections: Introductory, Financial and Statistical. The Introductory section orients and guides the reader through the report. The Financial section presents the entity's basic financial statements as well as notes to the financial statements and the independent auditor's report. The Statistical section provides additional financial and statistical data, including data about financial trends that may better inform the reader about the government's activities. |
