2. ARMS published a paper on the Resilient and Healthy Defense Communities, along with the Department of Defense (DoD) Resilient and Healthy Defense Communities Implementation Plan.

Critical Outcomes for the County of El Paso:

- With Raytheon offering to support deep maintenance in El Paso to support the reset of 32nd AAMDC units' post-deployment, ARMS has asked for support for this program and is waiting for a response.
- The county committed to helping Raytheon (RTX) with FSRs (All of whom, across the globe, work out of El Paso). We will follow up with RTX about support for this program in January.
- ARMS continues to follow up with our defense industrial partners (Raytheon, SAIC, and Northrop Grumman).
- ARMS members were invited to attend the "Iron Summit" with the 1st Armored Division and Ft. Bliss. More will be discussed at our Partner meeting in January.
- The ARMS chair has nominated the 1st Precinct Commissioner for attendance at the National Security Seminar, which will take place next Summer at the U.S. Army War College in Carlisle, PA.

Note: ARMS is available to brief or discuss moving forward with the county. If you would like a sit-down meeting, please give us some dates, and we will get the team to the County. We are also available to brief the Commissioners Court as you require.

Please contact us for specific information and discussions on the specificity of your requirements.

The report fulfills the requirement for a quarterly report as required under the section entitled Performance Measures of the MOU, Section 4. If you have any additional questions, please feel free to contact me.

Respectfully submitted:
