Background: The agenda item is a continuation of the series of capital planning workshops and exercises undertaken by the Court over the past year to identify funding needs and opportunities for various infrastructure projects. The item will largely focus on continuing the conversation on the funding of essential public purpose projects utilizing various finance tools and scenarios between the years of 2025 and 2028.

Original Background

A multiyear capital plan for El Paso County serves as a strategic financial roadmap outlining the allocation and management of resources for significant long-term infrastructure projects and capital investments. The multiyear capital plan serves as a forward-looking, strategic tool that facilitates responsible financial management, enhances public trust, and ensures the sustainable development and maintenance of essential infrastructure. The plan originally includes approximately 100 projects. The Court originally adopted a fiscally unconstrained planning document in February 2024 indicating that the projects were not funded nor committed to by the County, but instead, served as an internal tool to help identify capital needs and opportunities over the next five years in critical

areas of infrastructure and quality of life. The plan was reviewed and utilized by the County Bond Advisory Committee to evaluate funding opportunities and priorities over the next several years. After two series of public engagement, and nine Bond Advisory Committee work sessions, the Committee has formed a recommendation for the Court to consider with regard to the County's existing financial capacity and future finance opportunities.
